Terminal Disclaimer

1. The terminal disclaimer filed on December 9, 2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,697,846 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Authorization for this examiner's amendment was given in a telephone interview with Daniel A. Tysver, Reg. No. 35,726 on February 3, 2010.

The application has been amended as follows:

The facsimile of February 5, 2010 attached hereto contains a Listing of Claims (pages 2-11) which shall replace all previous claims.

examiner finds the invention patentably distinct from the prior art of record. The prior art of record fails to teach, either alone or in combination, a distributed file system and method wherein the distributed file system comprises a namespace defining a directory structure and a server computer for managing the namespace; a client computer, separate and distinct from the server computer, issues a namespace request to the server computer, and directly creates, retrieves and modifies the metadata.

The examiner agrees with applicant's statement in the facsimile of February 5, 2010 regarding the substance of the interview held February 3, 2010.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
